### Notes:

1. Project Phase I is a prerequisite for Project Phase II. Project Phase I will be evaluated by a PG committee in the month of November/December (the third semester in the program).

The following are the three cases based on the Project Phase I grade:

Grade C or above: Project Phase II in 4 th semester (48 credits)

Grade D and E: Project Phase IIA (12 credits) and 3 Dept. Electives in 4 th semester (36 credits)

Grade U: Repeat Project Phase I in 4 th semester (48 credits). Then do Project Phase IIA (12 credits and 3 Dept. Electives in 5 th semester (48 credits)

2. For students with CGPA of 6.0 or below at the end of the second semester, the Faculty Advisor and Head of the Dept. may recommend, on a case-by-case basis, that the student register for M.Tech. Project credits of 60 (CS5998 and CS 6119) in the fourth semester or later, after completing 36 credits of Dept. electives.

3. Only students who have completed at least 7 courses at the end of the second semester, will be permitted to register for M. Tech. Project Phase-I in the third

semester. Students with more than one uncompleted course must complete all coursework by the end of third semester and then register for M.Tech. project credits, in consultation with the Faculty Advisor and the Head of the Dept. These students will take more than 4 semesters to meet the requirements for M.Tech. degree.

4. Maximum of two Non-CSE Dept. courses can be credited as Department electives, with the approval of the Faculty Advisor and HoD, CSE. The current list of Non-CSE Dept. courses approved by the Dept. is given in Annexure – I. This list may be revised from time to time.

\*\* Indicated credits are only for core programme. In addition, 48/45/36 credits of electives have to be taken. Of these elective credits, 27 credits of electives have to be taken from Elec. Engg. (or equivalent) at the 5000 level or higher. The remaining elective credits can be taken in any department at the 5000 level or higher, subject to approval of Faculty Advisor. All elective lab courses will also be eligible.

The EE Department proposes to split the M.Tech project into two phases --- Project Phase-1 carrying 55-credits (to be carried out usually over the summer and the odd semester), and Project Phase-2 carrying 30-credits (to be carried out in the even semester).

Project Phase-1 is mandated for all students. On the other hand, Project Phase-2, which is the continuation of Phase-1, can be pursued only if it is approved by the evaluation committee.

At the end of Project Phase-1, the student should submit a report and make a presentation. The committee will then recommend whether or not the student is eligible to pursue Project Phase-2. If the student is not found eligible, additional course work has to be done so as to meet the total credit requirements for obtaining the M.Tech degree.
