04-2020	Administration	<div>What is the rationale in offering Sanskrit? Sanskrit did not find place in the 22 scheduled languages of India. Further it is not an official language of any of the 29 states and 7 Union Territories of India or it is widely spoken or used in day to day life in the country, except in religious practices. I am not against learning Sanskrit or any other language since I learnt to speak Japanese and few other Indian languages. But there should be a proper justification to teach any language as course in curriculum of higher technological institution. 		southern states and Union Territory of India – Andaman & Nicobar. Moreover, Tamil is the only Indian language which is truly International being the one of the National languages of Srilanka and Singapore and predominant foreign language of Malaysia. In addition, Tamil is spoken widely in Indonesia, South Africa, France (because of Pondicherry connection), Canada, Australia and in many European countries (due to Srilankan Tamil immigrants). Most importantly, Tamil is the only language in the World that has vast and rich literatures. If Tamil is not taught in IIT located in Tamil Nadu – Chennai, where else will be taught? In fact, students study Tamil in Chinese, Japanese, US & Canadian Universities so, is there any policy decision taken or will be taken by IIT authority to teach Tamil to non Tamil speaking Indian and Foreign students who are interested to learn the language? Please provide justifying answer.	The Institute also has a sabha named Muthamizh Mandram which organizes classes on tamil language to Non-Tamils regularly.
